The Conscious Business Declaration A New Standard for Business in the 21st Century

As a global community of business leaders we are committed to developing the awareness and skills needed to consciously evolve our organizations in alignment with these principles:

1. We Are One with humanity and all of life. Business and all institutions of the human community are integral parts of a single reality — interrelated, interconnected and interdependent.
2. In line with this reality, the purpose of Business is to increase economic prosperity while contributing to a healthy environment and improving human wellbeing.
3. Business must go beyond sustainability and the philosophy of “do no harm” to restoring the self-renewing integrity of the Earth.
4. Business must operate with economic, social, and ecological transparency.
5. Business must behave as a positive and proactive member of the local and global communities in which it operates.
6. Business that sees, honors, and celebrates the essential interconnected nature of all human beings and all life maximizes human potential and helps create a world that works for all.
7. When aligned with Oneness, Business is the most powerful engine on Earth for creating prosperity and flourishing for all.

The [Conscious Business Declaration](#) articulates essential principles that we believe will dramatically increase economic prosperity while healing the environment and improving human wellbeing. The Declaration aims to define a new standard for Business in the 21st century, one that will enable Business to become the most powerful engine on Earth for creating abundance and flourishing for humanity and all life on Earth.

A Radical Shift in Perspective

The Declaration calls for radical shift in perspective for Business globally, one that is already shared by humanity's leading spiritual traditions and validated by modern science. It is expressed in the first principle of the Declaration: “We Are One with humanity and all of life. Business and all institutions of the human community are integral parts of a single reality — interrelated, interconnected and interdependent.”

Humanity's Team is an international spiritual movement whose purpose is to communicate and demonstrate the timeless truth that We Are All One, with the Divine and all life – caring for each other and the world we share – so that people's actions reflect this profound understanding within a generation. We believe that living this truth is essential to solving the most chronic and acute world problems and vital to creating a sustainable world of peace, harmony and happiness.
